Mike

Here is the mine data that was provided to the agency partners.

Subject: Flow data from mine and historical USGS flow data

At the request of La Plata county, the EU provided flow data and field monitoring parameters from the mine. In addition, they requested historical flow data. R8 provided the USGS flow data and converted it to GPM at the request of Tom McNamara.

San Juan Basin Health (Brian Devine), CDPHE OEM (Trevor Denney) , and the Ute Indian (Kathy Gurule, Tom Johnson) agencies requested this information and it has been provided to them with concurrence from the IC (Althea Foster).
